FIFTY GUESTS AT A VERY HAPPY PARTY

A happy party of over fifty guests and a fine time in the Memorial Hall on Friday evening, the occasion being the celebration of the 30th anniversary of the wedding of Mr. and Mrs. G. F. Kearns. The guests were: Mayor and Mrs. Shrimpton, Mr. and Mrs. H. F. Jones, Mr. and Mrs. H. Gregor, Mr. and Mrs. A. V. McFarland, Mr. and Mrs. A. Gray Sr., Mr. and Mrs. T. Glendinning, Mr. and Mrs. B. Fessenden, Mr. and Mrs. A. Gray, Mr. and Mrs. D. J. McGlashan, Mr. and Mrs. J. French, Mr. and Mrs. F. A. Cott, Mr. and Mrs. M. Lounsbury, Mr. and Mrs. A. Kerne, Mr. and Mrs. T. Wallace, Mr. and Mrs. E. Sweetman, Mr. and Mrs. W. Oldum, Mr. and Mrs. Percy Wright, Mr. John Taylor, Mrs. Brady, Messrs. Rev. T. B. Winter, S. H. Crowther, T. M. Weas, W. S. Paterson, J. Gunn, P. Anderson, Walker, T. Glendinning, Jr., P. G. Kearns, S. G. Kearns, W. H. Kearns, Calgary, P. Grives, Calgary, M. Grunnet, Calgary, the Misses Anderson, Walker, Glendinning, Fessenden, Belling, McGregor, Kearns.

After partaking of a delicious repast provided for the guests, the chairman, Mayor Shrimpton, in name of the guests, presented Mr. and Mrs. Kearns with a lovely silver tea service, on behalf of Mr. and Mrs. Kerne, with a canister. The Mayor spoke in such flattering terms of Mr. Kearns with a lovely silver tea service, on behalf of Mr. and Mrs. Kerne, with a canister. The Mayor spoke in such flattering terms of Mr. Kearns with a lovely silver tea service, on behalf of Mr. and Mrs. Kerne, with a canister.

In returning thanks for the gifts, Mr. Kearns stated that he came from Dunmoe, Essex, England, where it was a time-honored custom for a lady of bachelor and matron, young or old, to award a fitch of bacon to any couple who had been married for a year at least, provided they were prepared to swear that they had lived in connubial bliss during the whole of the period. Mr. Kearns stated that after a year he did not feel qualified to complete, and came to the conclusion that there must either be a bunch of most amiable people in that locality or a bunch of hard swears. Mr. Kearns added that if he were to compete now for the half hog, with a recommendation from the Mayor, he felt sure, that instead of getting the half hog he would be awarded the whole hog. Principal Crowther, in proposing the toast of "the ladies", confessed he

didn't know much about them, but Mr. French, in replying, said that with a few more visits to Regina the Principal would soon be an expert. Mr. P. O. Kearns, in a neat speech, proposed the guests, and Mr. T. M. Weas, replied, by saying that he had once more to plead "Guilty" to looking up the authorities, and that without a few "plugs" would a reference to Kearns mean heavily armed troops. Kearns is a Celtic word and means lightly armed troops, surely a most appropriate name for a soldier such as Mr. Kearns had been. Gallowglasses means heavily armed troops. There is a Scottish word "cain" which means a pile of rough stones used to form a monument, which would indicate the Kearns' originally came from Scotland, a fact of which no doubt they are especially proud. To Mr. and Mrs. Kearns the words of the "Coster song" might be applied: "We have been together thirty years, and it don't seem a day too long."

Interpreted with the taste, was a fine musical programme. Mrs. Hirtle and Mr. W. H. Kearns gave piano solos, and Mr. P. G. Kearns and Councillor Cott entertained with songs, the favourites of Harry Ladd being well given by the Councillor. Supper and speeches over the company adjourned to the hall room where ancient and modern dances were engaged in by Mr. Walker and Mrs. Hirtle supplying the music. It was well worth while seeing the Mayor, Councillor Cott and the Town Solicitor tripping the light fantastic, the Mayor Solicitor and his fair partner receiving a round of applause for their performance of an old-time dance.

Wheeler Funeral Largely Attended

On Friday afternoon, the funeral of the late E. F. Wheeler was held at the Strathmore United Church, where the services were conducted by the Rev. John H. Garden, of Calgary, an old friend of the Wheeler family.

Mr. Garden most fittingly told of the many good points of the departed one, and the many outstanding points in his character, and of the work that he had done for the betterment of the community life with which he had been associated.

The Church office was filled to capacity with friends and acquaintances. Mr. H. Wooster presided at the organ, and Mr. C. A. Lydiatt rendered a solo most fittingly.

The pallbearers were Messrs Chamberlain, Groves, Phillips and Christensen, members of the Bow Valley Council, D. N. Gardner, secretary, and ex-Councillor Nelson. The interment took place at Strathmore Cemetery.

Among the floral contributions were the following: The family, Mr. and Mrs. Otto Wheeler and family, Mr. and Mrs. Jim McLean and family, Mr. and Mrs. Harvey Hanson and family, Mr. and Mrs. L. F. Pinkerton and Pinkerton Bros., Mr. and Mrs. A. Montgomery (Strathmore), Namika Ladies Aid, I. Michael, Glendinning, Mr. and Mrs. Corinae, U.P.A. and W.A. of Namika, Mr. and Mrs. H. E. Johnson, Mr. and Mrs. Jack McLean, Mr. and Mrs. Claude Macle, Mr. and Mrs. Ben Fessenden, Mr. and Mrs. Earl Gardner of Rockyford, the C.O.P.'s and the C.S.P.'s, boys of Namika, Mr. and Mrs. Charles Thompson and Glifford of Glendinning, Bow Valley M. Inter School Spelling Tournament

The annual Inter-School Spelling Tournament will be held on Friday, May 10th, in the Memorial Hall, commencing at 8.30 p.m.

There will be separate contests for all grades from II to XI inclusive. The teams in any one contest must not consist of more than four pupils, but may consist of less. A cup will be awarded to the team winning the Grade VII contest, this is now in the possession of the Carleton Place School. Cash prizes will be awarded in all classes. It is hoped that all schools of the District will enter teams for this event. There will also be a good musical program.

Further information may be obtained from the Principal of the Carleton Place School.

GOLF

The Strathmore Golf Club elected the following officers for 1929:

President..... G. H. Patrick
Vice-President..... T. E. Wright
Secretary-Treasurer..... D. A. Perry
Executive Committee—F. H. Taylor, House and Entertainment; Alex Gray, Jr. Membership; Robert S. Stockton, Grounds.

The course is in good shape now for play, and everyone at all interested is cordially invited to join the Club and hand their fees to Mr. Perry. Full membership for men \$10.00; Ladies Club, \$5.00; Juniors (children in school) \$2.00.

Improvements to fairways and greens are planned, and everything points to a good year for the game. A membership in the Alberta District Golf Association will give us a chance again to be represented in the very successful annual meets being sponsored by the Calgary Herald.

Nowadays one must know and play a little golf to be among those mentioned, so join the club and get in the game. The rules adopted this year do not permit playing after May 1st unless your club are paid.

Coming Events

Tenders will be received up to May 15th, at 2 p.m. by M. D. Bow Valley for road building and culvert work.

CURLING CLUB BANQUET A SPLENDID EVENT

The Banquet and Social Evening arranged by the Curling Club, proved a thoroughly enjoyable and happy evening.

The tables looked most attractive with their decorations of ribbon bands arranged diagonally, the "squares" dear to the curler's heart, and the various array of most tempting salads, jellies, cakes, etc., and on the head table were placed the very pretty prizes which had been won during the previous winter.

Seated at this table were President Cott and Secretary Taylor.

The Grace, "Be Present at our table, Love was sung in unison, after which all did ample justice to the very appetizing viands provided.

Following this Pres. Cott called the gathering to order, when he presented the prizes. He next called on Mr. Gray to propose the toast to "The Ladies". Mr. Gray proposed this toast: "To the ladies, the most interesting way. Mrs. R. Brown responded briefly but ably.

Much appreciated violin solos by Mr. B. Pleuner with Miss G. Hughes accompanying, and two vocal solos by Miss Fick very pleasantly rendered, interspersed with community singing, made a happy informal program, concluded by the singing of "God Save the King", after which the tables were cleared, and a couple of hours happily spent in dancing.

The Ladies Curling Club, who arranged the supper, are to be congratulated for providing so delicious a repast.

Neil and Bill Glendinning and Jack Freeman served coffee. The prizes were won by: Calgary Brewery Cup — W. Gray D. N. E. Cup — W. Gray B. H. Shield — W. Gray Lethbridge Brewery Cup — B. Brown Ladies Shield — Mrs. Hirtle Ladies Cup — Mrs. Freeman

The following officers were elected: President — F. A. Cott Vice-President — F. Gray Secretary — F. Taylor

Executive Committee—Alex Gray, Nola White, D. A. Perry, T. E. H. Anderson, H. S. Stockton, F. J. Anderson, son, T. Wallace.

You Are As Young As Your Faith

Youth is not a time of life—it is a state of mind. It is a temper of the will, a quality of the imagination, a vigor of the emotions. It is a freshness of the deep springs of life. Youth means a predominance of courage over timidity, of the appetite of adventure over love of ease. This often exists in a man of fifty more than in a boy of twenty. Nobly grows old by merely living a number of years. People grow old by deserting their ideas. "Whether seventy or sixteen, there is in every being's heart the love of wonder, the amazement at the stars and the starlike things and thoughts, the dancelike challenge of the unfurling childlike appetite for what next, and the joy and the game of life. You are as young as your faith, as old as your doubt, as young as your self-confidence, as old as your fear; as young as your hope, as old as your despair. In the central place of your heart there is a window-look, Brown Dogger land last week, getting messages of beauty, hope, cheer, grandeur, courage, and power from the earth, from men, and from the infinite, so long are you young."

STATUS OF CANADIANS DEFINED

WASHINGTON.—A general order which will define the status of Canadians who are in the United States will be issued by the Department of Immigration within a few days. It will make it as easy as possible for Canadian who came into the country before the present immigration laws came into effect to clear up any irregularities in their entry.

Thousands of Canadians are living in this country whose status is dubious under the law, but in most cases they will be required only to return to the nearest border point, enter the country legally and pay their head tax and visa fees. Including the Canadian visa fee, the cost involved is about \$25. This applies to people born in Canada, Canadians born outside the Dominion come within the quota laws if they have entered this country since the quota law came into effect.

Effective July 1.

Immigration officers are not prepared to discuss the terms of the new general order yet, but they admit that it will be issued within a few days, and that it will probably be effective from July 1. The object of the department is to check up on immigrants from non-quota countries who have come in as visitors and remained in this country, and who may be in breach of the law is proved, such as breach of the alien contract labor laws, the immigrant is subject to deportation, and their employers may be subject to a fine.

No Trouble Anticipated
"We do not anticipate much trouble, however," said Commissioner General Harry Hall today. "We are prepared to go further to help Canadian-born residents of this country to establish on any difficulties they may have."

"MEN'S BETTER WEAR"

If I Owed YOU 2 Dollars

For a year or more and made no effort to "settle up", you would make every effort to collect the two-spot whether it made me "mad" or not, wouldn't you? And you would not be anxious to sell me anything more until I had arranged payment. Then suppose that in addition to me, Smith and Jones, and Bellamy and Whosis owed you each \$2.00. Including my debt that makes \$10.00 coming to you, and no one paying, each one of your debtors saying: "Why it's only \$2.00, what's the hurry?"—but when the \$2.00 is multiplied 5 times it's \$10, and when its multiplied by hundreds it's a lot of money."

Subscribers receive the Standard every week. The paper, ink and workmanship which enter into it are paid for every week. The subscriptions come due but once a year—Just \$2.00—multiplied by hundreds.

Will you recollect that, please, when your "subscription" is past due? Thank you.

SPORT NOTES

TORONTO, Ont.—It was an ill wind at Port Dalhousie, Ont., that destroyed the Canadian Henley grandstand, but St. Catharines City Council and the rowing association are already busy planning a new steel and reinforced concrete stand with accommodation for boats and crews.

St. Catharines fears that it may lose the Canadian Henley to Toronto or Hamilton, both of which cities are agitating for rowing courses.

Jimmie Rice, veteran Toronto coach of Detroit rowmen, summing up the world's greatest rowing men in his 48 years of experience, calls Cornell's eight of 1906 as the greatest of all crews to come under his observation; a crew that cleared their puddles by 12 feet at a racing clip. And the average beat was 28 and never over 30.

Yale's 1924 Olympic champions he rates as equal to that Cornell crew. He adds: "Joe Wright-Toronto Argonaut crew of 1905 could travel just about as fast as the law allows." Miss Evelyn Colyer and Mrs. John Hill, two members of the English Ladies' Weightman Cup Team, well-known to Canadian and United States tennis followers will play in Ottawa on the courts of the Rideau Lawn Tennis Club during the first week in May. This exhibition was arranged following the recent visit in England by Philip D. Lyons, president of the Rideau Club and first vice-president of the Ontario Lawn Tennis Association.

Ottawa is all set for the big athletic carnival to be staged in the Capital City on April 17, when Percy Williams, Olympic champion, will be in his recent eastern tour performed mostly at 60 yards.

Not only will Percy Williams show his wares but such famous athletes as Johnny Fitzpatrick, Hamilton printer, Jimmy Ball, Winnipeg's great quarter-mile runner, and Phil Edwards, the famous coast-to-coast distance runner, are expected to appear on the same program in the Ottawa Auditorium. Ethel Catherine, Olympic champion high jumper and Myrtle Cook and her Canadian ladies' track team of Toronto, Green Nye, and other members of the Hamilton Ladies' track team have also been invited.

"Phat" Wilson, veteran captain and defence man of the Canadian amateur hockey championship team, Port Arthur, is the proud holder of three Allan Cup pucks, each of which were used in the final games. Port Arthur has contested in as many years for national honours. Wilf L'Heureux, the other veteran of the team, clung tenaciously to his stick in the deciding tilt against St. Francois Xavier of Montreal, for he possesses the other two with which he played in the championship series.

Calgary's stock is booming the swimming world for two of the leading mermen in the country, Mary Casson, formerly of Toronto, and Audrey Griffin, of Victoria, are moving there to live. Miss Griffin, winner of many Canadian, British and Empire titles, and Pacific Northwest championships and holder of numerous records, recently married J. R. Kieran of Minneapolis, Alta, and intends to swim for the Calgary Club.

She has never been defeated in a British Columbia championship and holds all the records from 50 yards to three miles. She has won Canadian championships several times and two years ago made a clean sweep of the women's swimming events at the Banff winter carnival.

The Searnam stable has 50 horses in training for this year's racing, by long odds the largest string in Canada. E. F. Searnam is the chief owner of the stable, with his brothers, Norman and Thomas as his associates.

There are 19 of these horses at Bowle in charge of Trainer Jack Whyte and 15 at Pinhook in charge of Trainer W. J. Donahue.

Head Trainer Wm. Bringle is at Waterloo looking over the training of the King's Plate, the provincially 2-year-olds, and Sir Harry and Gaffman. He has just returned from Maryland where he looked over the other horses.

The King pins of the older horses are Sir Harry, 5, and Solace, 4. Sir Harry always has been a good race horse—one of the top-line division. Solace this winter was unlucky enough just to be nosed out for big money. He afforded a little alleviation in the strain of the financial maintenance pressure and gave some comfort in a financial way—but had he moved out about four feet more he would have won many thousands, where he garnered hundreds.

He will probably run true to his name at Bowle and Havre de Grace. He has the goods.

Do you know that George Ivals of Toronto is the man who was responsible for putting Howie Moren on the hockey map? At the time, Ivals was a resident of Stratford, Ontario, but after a visit to Mitchell, a neighbouring town, Moren's home town, he quickly saw a big future in Howie as a hockey star and he induced him to reside in Stratford, where he soon became a star of the first rank.

Speaking of Moren, the O.H.A. had some trouble when Howie broke into hockey of getting a proper birth certificate, for although the player was registered at the parliament buildings in Toronto under Howie Moren, yet the clerk in making the registration had placed the word female after the name. This clerical error caused some confusion until things were properly straightened out. Incidentally, it is an old story of how the Canadians signed Moren. He was an NHL member in Montreal and a Toronto St. Patrick delegate spoke out of his turn. At last, he made the casual remark at the meeting that he was going up to Stratford the next day to sign Moren. Canadians, taking the tip, put a man on the same train as the St. Patrick delegate. The former went right on through to Stratford, while the Toronto man got off here and then went up on a later train, only to find that Moren had signed with the Flying Frenchmen.

BASEBALL REPARTEE

Rhino Williams, once a star out-fielder with the Mohs, was one of the members of the repartee of Empire Steamboat Johnson a few years back. It was the first game of the season, Williams at bat.

"Go, Steamboat, I'm glad to see you. Did you have a good winter?"

"Fine, thanks, Rhino, how's the wife?"

"Fine, thanks, Steamboat. I was just telling everyone during the winter that a great umpire you are."

"Stor's mighty nice, Rhino—strike one!"

"That looked a little odd to me."

"Ball one."

"Great eyes, Steamboat."

"Strike, two."

"Say, Steamboat, you didn't have no eye trouble during the winter?"

"Ball, two."

"That's better."

"Strike, three."

"Why, you blind bug. You robbing thief. You couldn't see your own hand. The ball was outside. I'm sorry I ever spoke to you."

"All right, you're out of the park."

"Listen, you bum, you've got mud in your net."

"Well," said Steamboat, "you've got ten dollars in yours, now laugh that off."

And Rhino had to.

RESTRICTED EUROPEAN CREDIT STRONGLY RECOMMENDED

PARIS.—Europe today has borrowed all the money it ought to have borrowed from America, and America has lent nearly all the money it ought to lend. Europe must now, therefore, depend on its own resources, and to capitalize these it must not only produce goods but sell them. In order to sell them in sufficient quantities to meet the needs of the new situation, tariffs must be lowered. This is the argument advanced by the Liberal economist and prominent Free Trader, Sir George Paish, in the course of an address given here under the auspices of the Paris section of the League of Nations Union.

Sir George paid eloquent tribute to what the United States had done for

BILLY PAPKE'S SON

Remember Billy Papke, the "Illinois Thunderbolt," who was going great guns in the middleweight division around 1907? Would it surprise you to know that he has a son named Billy, 18 years old, who is shortening real class as a boxer, and who threatens to grow into a premier heavyweight? These facts, according to Ed W. Smith, nationally known authority on boxing, who is making his home in Los Angeles. Smith says that Young Papke has all the appearances of a coming champion. Father Papke, who, by the way, is now 42 years old, is growing citrus products on a ranch which he owns at Altadena, Cal., and is most comfortably situated. He started early giving his son instructions in boxing and the lad has proved a most apt pupil. He is a middleweight now, but has a big frame, good height and will bloom into a heavyweight by the time he is a few years older.

Billy Papke, Sr., fought three great fights with Stanley Ketchel, around 1909, winning one and losing two to the Grand Rapids assassin. He knocked out Georges Carpentier in 17 rounds in Paris in 1912.

Europe since 1914, giving America credit for having voluntarily supplied the food which kept Europe from starving. America has also contributed the credits with which Europe has been to a large extent relieved of its war debt. America, at the end of its tether. The Federal Reserve Bank Act introduced after the war commenced permitted American bankers to create more than twice as many loans on the same cash reserve. In place of a 25 per cent gold reserve, the average—roughly 10 per cent, which meant in practice that these bankers were able to grant credits to 10 times the amount of money sent back from Europe.

Credits were given up to some \$40,000,000,000, and the result is that practically the whole of the credit margin allowed by law has been used up. The available cash reserves for such purposes in the Federal Reserve Bank are thus exhausted, and America is in a condition of financial stringency.

An additional reason for the restricted foreign credit, according to Sir George, is that the amount of new issues in the United States has been so extremely large. Many have been obliged to pay for their loans to obtain their requirements. It is well that America should call a halt to loaning abroad, for it is not good reasons for people to borrow when they should not borrow. Europe has recovered in a way which no one imagined possible, but it has accomplished this by borrowing, and the question now arises as to how it is to meet its obligations? Clearly, not by more borrowing. A new stage has come by virtue of budget and currency stabilization in most of the European countries, and it is time Europe shouldered its responsibilities and is allowed to repay out of its own productiveness.

Europe requires today more raw material and food than ever before, and there is as well the very large sum to be paid, Sir George pointed out, as interest alone on the sinking fund of the capital borrowed. Europe must, in fact, now manufacture double the pre-war quantity of goods to meet these obligations. It must sell to the whole world, and yet the world is unwilling to buy. The one existing solution, he concluded, was that the artificial barriers between the human races must be done away with, and then the world would rise as it has never risen before.

TRAIL RANGERS AND C.G.I.T. NOT DENOMINATIONAL

Some people think that the C.G.I.T. and Trail Ranger Groups are a United Church organization, but that is not so. They do not belong to any one denomination, but are under the auspices of the Board of Religious Education, and that Board is composed of ministers from the Anglican, Baptist, Christ Disciples and United Churches and the Y.M.C.A.

In the cities where there are a number of Churches, each Church has its own group, but they receive their program and lesson material from the one board, each city having a provincial supply depot.

The ideal and purpose of the movement is to create a brotherhood and fellowship throughout the whole wide world wherever Christ's gospel is preached.

These groups are organized in China, Japan, India, Asia, Africa and Europe. The program of the groups is founded on Luke 2, verse 52: "And Jesus increased in wisdom and stature and in favor with God and man."

Each member promises to follow the Fourfold Trail, it being the duty of each member to take four steps up and along this trail every day: first step, mental alertness; second, physical fitness; third, reverent devotion; fourth, helpfulness to others.

This is an answer to the question that has been asked, because some of the Anglican Church boys are members of the Trail Rangers.

He had lived in Langdon about twenty years. Mrs. Forgie, son and daughter, have the sympathy of all their friends in this district.

The Ladies Aid, of Langdon, met with Mrs. G. Buntin on March 27th, and elected their officers for this year.

Canada in Danger of Losing Her Reputation for Hard Red Spring Wheat

By H. G. L. Strange, Fenn, Alberta, President Canadian Seed Growers Assoc.

The farming world of Canada this last year has been filled with discussions in regard to practically everything that enters into production, transportation, processing and delivery of Canadian grains on the world's markets.

One important factor has come out of it all, and is not disputed, which is that Canada is in serious danger of losing her hardy won reputation for hard red spring wheat.

There is no disputing that if reputation were to be lost it would be a catastrophe for the farmers of Canada, because it would mean at the outset that Canadian wheat would have to come into competition, on an equal basis, which it seldom has had to do up to the present, with the enormous quantities of hitherto regarded as inferior wheats from other wheat-exporting countries. Most certainly, most certainly this would mean not only lower prices but a higher marketing cost as well because it would be more difficult to sell due to less eager demand.

Apparently the wheat raisers of Canada too long have regarded themselves as occupying a preferred position, and have really come, seriously to think that the person who buys their wheat should be satisfied with exactly what the Canadian farmer wishes to supply them with and should, in fact, regard himself as more or less of a lucky person to get this wheat at all.

This mental attitude on the part of the farmer is, of course, all wrong, and if continued will certainly lead to disaster. The unpleasant fact remains

that the real master of the whole situation is the buyer and not the producer, and that if Canada wishes to remain as the supplier to the world's markets of the highest quality of wheat, that will fetch a premium above the wheats of other countries, when it is vitally necessary for the wheat producers of Canada, through their marketing organizations and other agencies, to take considerable pains to find out exactly the kind of wheat their customer demands and exactly the grade and shade in which the customer desires his wheat to be delivered.

The world's buyers require only a maximum of some ten grades of Canadian wheat. The unpleasant fact remains that last year some 450 grades of Canadian wheat were offered by farmers to the marketing agencies for sale. By actual count, with our present grades and varieties, there has been computed no less than 2,623 grades could be produced. The great bulk of wheat grades are absolutely

and entirely unnecessary and prevent sale.

Without recounting the many factors, that go to make up all these unnecessary grades it is sufficient to state that a great number of them are caused by the mixing of different varieties. There are so many unnecessary grades that this coming year if he will determine to send only seed that is pure, clean, reasonably true to variety and the right variety for his district.

Not only will the crops produced from such seed mature more evenly than scrub seed, not only will they give a higher yield because of the careful selective breeding work being done, but in addition they will give a higher grade because of the trueness to variety.

This last year, for instance, because of the frost, was a very hard year for all wheat excepting the early varieties. Yet it was noted by skilled professional observers that whenever good true to variety seeds had been selected, particularly registered seed, even with the later varieties, that the resulting crop was less harmed by frost and so commanded a much higher grade

than the average run of crops of the same variety.

The air is full of co-operation these days, but the farmer must not forget that only a small step in co-operation has been accomplished by cooperating together to put in an agency to market crops. True co-operation means that the farmer himself in turn will do everything within his power to co-operate, not only with his marketing agency, but also with the purchaser of his products. Both of these men actually mean the same thing, producing as near as possible the kind of product the customer demands and in such shape as he requires.

As far as the wheat industry is concerned, this simply means that crops will be produced which are as clean as possible and as true to variety as possible and of that variety which is most acceptable to the world's purchaser, which as far as the bulk of Alberta wheat is concerned means hard red spring wheat of high milling value.

To secure these kinds of crops it is necessary for the first step to now select the right variety, and which will contain practically no weed seeds nor other kinds of grain, and which will be of strong vitality and germination.

If the bulk of Western Canadian wheat growers would do this very simple thing there would never be the slightest danger of Canadian wheat losing the fine premium over all other wheats which it has enjoyed in the past and should command in the future. Incidentally, too, the work of those who market this wheat will be easier and carried on more cheaply. There is no money spent by the farmer which will bring him in such big profits as that spent in securing good, clean seed.

WHEAT POOLS OF CANADA REFUSE TO ENTER U.S. RING

WINNIPEG, Man.—Canadian wheat pools will enter into no alliance with United States producers to control world prices.

Officials of western pools in making this announcement, point out that at the world wheat pool conference last summer at Regina, all pledged themselves not to enter into any combination to control prices. This was at the urgent representation of British and European buying houses. On that understanding the Europeans agreed not to consider retaliatory or self protective measures of mass production at home or in their colonies.

Winnipeg pool officials doubt very much the capacity of such a Canada-U.S. combination to control prices when they control only 80 per cent of production. They point out that the history of the rubber trade will be repeated in which non-participating countries reaped the cream or high prices and enhanced production.

The proposal was advanced by J. W. Brinton, of Lincoln, Nebraska, before the United States senate agricultural committee at Washington. Mr. Brinton's proposal was to "stabilize the price" which means to enhance the price in the view of Canadian pool officials, and is therefore a direct violation of the pool agreement not to attempt such a course.

Western Canada wheat pools plan to merely do three things: create orderly marketing machinery to prevent deluging the market with grain during the rush delivery months, to bolster the market when the bears have control without an economic basis and to prevent sudden panic downward movements during bull crop reports in the growing season. Anything other than that, they point out, would violate their agreements at Regina.

THE SECOND MILK

The sun stood still in the heavens, And poured its scorching rays O'er the hills, the valleys, the rivers, The lakes, the broad highways.

The shepherds had sought the shade Of the densest bush or tree, And the sheep sought shelter in the woods.

From the sun's intensity, But a Roman guard with his spear and shield Moved slowly 'long the road. The sweat rolled down his hard, flushed face.

He bled no weaking's load. And travelling 'long the other way A Jew in robes of white, Caught sight of the approaching guard And instantly took flight.

For it was a law in that land those days That a Jew must take the load Of any Roman and a mile Bear it along the road.

Then came another Jew—a youth, And seeing the soldier there Has quickly up to him and said: "Let me your armour bear."

The guard gaped with astonishment And handed o'er his spear And armour to this Hebrew lad, And then dropped to the rear.

To pace the distance of a mile, For the youth who just ahead Of him was walking with his burden With steady measured tread.

Little did the Roman realize That in that lad's keen mind Thoughts were going musing forth That were to rock mankind.

But at the mile's completion Where loads were always dropped The lad kept steadily onward. He wasn't the kind that stopped.

He questioned the lad and the answer He got came with a smile: "I don't believe in doing only my duty; I am going the second mile."

TUDOR

On Wednesday evening, April 17th, a large number of friends gathered at the spacious home of Mr. Harry C. Dent, at Tudor, to bid farewell to Mr. Frank Dyson and his mother, Mrs. Dolly Dyson, who are leaving to make their home at Rochester, Alberta.

The affair was sponsored by the U.F.A. and W.A., of which societies they have been loyal and ardent members since the organization of these locals a number of years ago.

During the evening, Mrs. Herman Schoper played two piano numbers, which were greatly appreciated. Mr. Noel Lang gave in his inimitable manner, two humorous readings, and Mrs. James Jennie sang two selections most pleasingly. Little Miss Alice Hoffman, Mr. Harry Leonard and Mr. Frank Dyson each contributed several selections by request, which were thoroughly enjoyed.

After the program Mrs. Schoper gave a most interesting talk expressing the regret of the community at losing Frank and his mother, who came here from Illinois fifteen years ago, when the community was in its infancy.

Mrs. Schoper paid a glowing tribute to the splendid character, ready helpfulness and courage of Mrs. Dyson, and spoke of the loss to the U.F.W.A. that her removal occasioned. On behalf of the society she presented to Mrs. Dyson a beautiful dressing gown as a light token of the love and esteem which the members hold for her.

Mrs. Dyson responded and thanked the ladies for the gift, and their kind expression of friendliness, stating that it has always been a pleasure to be of any service to the community.

Mr. H. A. Ruppe, representing the U.F.A., also expressed the regret of the community at losing these old

friends, who have been closely identified with all its activities, and extended to them the best wishes of the community for their happiness and prosperity in their new home. On behalf of the U.F.A. he presented to Frank a handsome lamp and a purse as a gift from the community.

Mr. Dyson responded in a very fitting manner, expressing his pleasure over the gifts, and also his extreme regret over leaving the community and his many friends.

A most delicious and bountiful lunch was served under the direction of Mrs. Verne Belts and Miss Agnes Peterson, who were assisted by a bevy of attractive young ladies.

This community has been unusually fortunate in being able to retain most of its earlier residents, and it is with a feeling of distinct loss when a break does come in the community family. Mr. Dyson and Mrs. Dyson carry with them the very best wishes of the entire community.

ROSEBUD

The Ladies Bridge Club met with Mrs. A. E. Vigar on Wednesday evening. Prizes were won by Mrs. Wilson Jones and Mrs. Lefcoe. There are to be only three more parties this season.

Seeding is well under way in this district. The recent winds have caused much land to blow, especially the summerfallow.

Mrs. Howard Hymas was a Calgary visitor last week.

A most enjoyable time was had by members and Drummehill visitors on the O.E.S. on Monday evening when two candidates were initiated.

Mrs. S. L. Wright, who has been quite ill, is improving.

Friends are sorry to know that Mr. S. L. Wright is completing his duties at the Rosebud Co-operative the end of the month, and will move his family to Cayley. However, all wish them much joy and prosperity in their new home.

Twenty-five members and visitors of United Church Ladies Aid met at the home of Mrs. Walter Hymas on Thursday afternoon. There will be a home cooking sale and tea in H. N. Jones' office on Saturday.

Plans are being made for the Bazaar in the fall. The Aid is growing fast, and all newcomers are most welcome.

The Aid meets at the home of members on the first and third Thursday afternoons of the month. Anyone who had rather entertain in the Church parlors may have that privilege.

Miss Eileen Garriott, R. N., is visiting her class mate, Mrs. L. W. Comstock.

Mrs. L. P. Forker had the minor tune to run a pitch fork into her foot, and is suffering from the effects.

Communion was observed in the United Church on Sunday evening.

Harry Wilson is suffering with sciatica, and is confined to bed.

A number from Rosebud went to Drumehill on Tuesday to attend the birthday party of Ruth Chappier 80.

The next meeting of the Ladies Aid will be at the home of Mrs. Comstock on May 2nd.

Mr. Vallery and family motored to Munson and surrounding towns Sunday.

ROCKYFORD

The new convent is nearing completion, and the Ursuline Sisters expect to take possession early in the summer.

Mr. Stafford Killen is at present visiting his brother, Rev. Fr. Killen.

Mr. B. F. Dyson has moved to Rochester, Alberta, where he has taken up a homestead.

Mrs. F. W. Gibson has been confined to her bed for a few days with the flu. Here's hoping for a speedy recovery.

Mr. and Mrs. Lawrence Stinn are rejoicing over the birth of a son. Daddy reports both are doing fine. She is expected home from Germany in a few weeks.

Mr. and Mrs. Carl Johnson and daughter have returned to Rockyford, after spending the winter in Oida. Quite a number of Rockyford people attended the dance at Rosebud last Wednesday. All report a good time.

The Ladies Aid met at the home of

Mrs. Walrod last Thursday. Mrs. R. D. Hewson and Mrs. A. J. Cammatt and Mr. Walrod served a very dainty lunch.

Mrs. Black and Mrs. Stone entertained the ladies of the town at Court Whist on Wednesday afternoon at Mrs. Black's home. About twenty-four ladies enjoyed the afternoon; Mrs. Brown carried off the highest honors, while Mrs. McKean was given the consolation. An exceedingly dainty lunch was served by the hostesses.

Mrs. Black and Mrs. Stone were joint hostesses at a bridge party for some of the married couples on Wednesday evening. They report a splendid time. Mr. R. Knight captured the first prize for the gents, and Mrs. Hovey the ladies, while Mr. Hovey and Mrs. Kottmarch calvinized the lance hour and the balance of the evening with humor over their comical prizes.

Several of the farmers around here have had rather serious scares, when they tried to burn the long stubble, which was left after the combine, as the wind storms came so suddenly and carried the fire much further than was expected. So far there have been no serious losses.

The regular meeting of the Ladies Aid met in the Church parlors on Thursday afternoon with about thirty present. Miss Bernice Schaffer gave her paper on the Pension Fund.

It was well given, and showed much preparation in detail. These talks are being well received and prove exceedingly instructive. The ladies have organized a "Pension Fund," which they hope will grow rapidly to make a new structure possible in the course of the next few years. At the close of the business Mrs. Pomroy and Mrs. Howick served a most enjoyable lunch.

The first of the May meetings will be held on the third of the month at Mrs. Sever's home.

Mr. Larsen, who ran the shoe repair establishment in the Ryan store here, closed up business last week, and he and Mrs. Larsen and family moved to Carbon, where they will take up their residence in future.

Some of our local store keepers are directed by Spring fever, and the results are new coats of paint on the outside of their stores. This will improve the Main Street considerably. We don't mind if that kind of fever spreads.

Mrs. McKean entertained the ladies at Bridge on Friday evening, when a splendid time was spent by all. Mrs. Hewson carried away the honors, and Mrs. Lingerider the consolation. A very dainty lunch was served by the hostess, assisted by Mrs. Hewson and Mrs. Gantel.

Mr. and Mrs. Carpenter have rented the Hunter house, and are moving in this week. Mrs. Owen, Mrs. Carpenter's mother, from Medicine Hat, has given up housekeeping there, and is coming to Rockyford in the near future to make her home with her daughter.

Mr. W. Wetison, who has not been in good health for some time, became suddenly worse on Monday morning, and was rushed to Calgary hospital.

The many friends of Frank Dyson and his mother met at the home of Mr. H. C. Best on Wednesday evening, to wish them every success in their new home in the north country, where Frank has taken up a home stead. They left on Saturday by C.N.R.

Little Barbara Gillespie received what might have been a very serious fall on Thursday afternoon if it had not been for the prompt attendance of Mrs. Hewson, who happened to be

A bow rudder is a unique feature in the equipment of the Princess Norah, latest addition to the fleet of the British Columbia Coastal Steamship of the Canadian Pacific Railway. This facilitates the control of the vessel in the narrow channels in Pacific coastal waters and between Vancouver Island and the mainland, lining the ports of Vancouver, Victoria, and Seattle.

The Princess is shown here in drydock, her bow rudder being plainly visible. On her initial voyage up the coast she carried a distinguished company, including Their Excellencies the Governor General and Lady Willington, Hon. Randolph Bruce, Lieutenant Governor of British Columbia, and his niece Mrs. Helen Mackenzie, and prominent residents of the Pacific coast.

A SOLDIER'S DREAM

Last night was a dream night. To a soldier old and gray. Who told me of a dream he had. On I think 'twas Christmas Day.

While snoozing in the trenches. A bright vision came to view. Behold an Angel entered. Dressed in garments white and new.

Said the Angel to the soldier, I have been sent down. To bring you up to glory. And put on your Golden Crown.

You've been a friend to everyone. You've fought the night and day. You've helped to save some thousands. Whom Kaiser Willy meant to slay.

So we wait you up in Glory. For you have labored long. And the Angels are preparing. To receive you with a song.

So the Angel and the soldier, Started up towards Glory's Gate. But when passing close to Heaven's. The Angel murmured "wait".

"I've got a spot to show you. It's the hottest place in. Where the Hun's who tried to kill you. In great torment shall dwell."

And behold the soldier saw there, Kaiser's Willys by the score. So he sat on an asbestos chair. And wished for nothing more.

He was bound to sit and watch them. As they sizzled, singed and burned. And his eyes would rest on Priscilla's. In which ever way they turned.

Said the Angel to the soldier, There's the Pearly Gates to see. But the soldier simply muttered. This is heaven enough for me.

HEARD ON THE STREET

A Calgary young lady had just picked her way up from the roadside as the automobile sped away.
"Have an accident?" asked Harold Smith, who was just too late to be of assistance.
"No, thanks," she said. "I've just had one."

"Mother, I just saw daddy kiss the maid!"
"The little runt! I didn't think he was tall enough!"

He: "May I kiss you?"
She: "Heavens! Another amateur!"

"With whom was your wife quarrelling last night?"
"Oh — er — she was scolding the dog."

"Poor beast—I heard her threaten to take the front door key away from him."

"A burglar broke into my place last night."

"Did he get anything?"

"Bathes!" You see, my wife thought I was met!"

Hedda: "Why do you wear spats?"
Larion: "In memory of my first wife."

As Jim Moran, the plumber, entered the house he met Blank and his wife in the hall.

"Before we go downstairs," said the methodical Blank to the plumber, "I wish to acquaint you with the trouble."

"I'm very pleased to meet you," said Jim, as he bowed to Mrs. Blank.

London, April 22.—(By A. P. A. Cable) —Two hours after the London taxicabs reduced their rates and dispensed with the usual charge for extra passengers, two cabs came together near Harvard House and 21 Scotchmen were injured.

First Old Maid: "Just think, Sarah, last week I found two men under my bed."

Second Old Maid: "Oh, Libby quit your bragging!"

The teacher asked the class to write sentences or a short composition using the words before and behind, as many times as possible. Vin turned in the following paper:

"A nut, has two legs on behind, And two he has before, You stand behind before you find What the two legs behind he for."

A modern girl was undressing when a mouse ran into her bedroom. The mouse gave one great scream and fainted.

A daily paper states that a new musical instrument, combining a saxophone and bagpipes, has been invented. That's not a musical instrument—it's a weapon.

Indignant Parent (7 a.m.): "Young man, what do you mean by bringing my daughter home at this hour?"
Jim Gannon: "Well, I've got to be at work at 8."

Mother: "Now, Willie, I want you to go in and get acquainted with the new nurse, and kiss her nice."
Willie: "Yes, and get my face slapped like papa did; not on your lips!"

A Scotchman once walked into a shop with a dozen chorus girls.
"Go ahead and buy anything you want," he said.

"That's right, laugh. This is a joke."

The wife of a Scotchman was taken seriously ill and was rushed to the hospital where it was decided that an X-ray was required.

Sandy requested that a little delay would permit him to bring the children, and they could have a family group.

"Tim" Grogan, a distant relative of the famous or infamous Tony Grogan, met with an accident, and was taken to the hospital, where, like his relative, he was most difficult to handle. Unlike Tony, even the pretty nurses did not phase him.

"Come, take this," said one nurse. "and you will get well and strong and rosy too," said another nurse.
Tim sat up and asked, "Which way of yes is 'Rosy'?"

"Blimey Bill" is quite a poultry expert, and adopts some novel methods to increase production through scientific feeding. He is also a firm believer in the law of suggestion, so recently he wandered out, to the country and commanded a turkey egg. "He placed this in the nest as an objective, saying to his pet flock, 'I am not eating any insinuations, not reproaching you for past efforts, simply endeavoring to show what is being done to

other places. You can believe it or not, but within a week the eggs weighed 25% more per dozen."

"I hear, Willie, that your father has just received an offer of several thousand more salary from a city pulpit. Will he accept the call?"

"Well, dad's in his study praying for heavenly guidance, but mother's packing."

It takes about 1,500 nuts to hold an automobile together, but it only takes one to scatter it all over the landscape," says Gung Giroux.

My wife and I agreed that after we were married I should decide all major questions, and she would decide the minor ones."

"How has it worked out?"

"We have been married three years, and I am grateful to say there have been no major questions."

"You were going 40 miles an hour," said Constable Wallace, reproachfully.

"No, no deliberate lawbreaker," said "Hippo" Fraser. "I'm ashamed of myself, but I'm kind of proud of the old Ford!"

Ernie: "My dear, why don't you ask me for advice on the matter?"

Wife: "I intend to, just as soon as I decide what I am going to do."

Bob Hamblly was telling about a company because he was hurt while watching a ball game. He fell out of a tree.

Jim Moran, who is an expert in selling washing machines, is also very much interested in giving service after making a sale. He inquired from one of his clients how she liked the machine, to which she replied: "I don't like it at all, as every time I get into it to take a 'bawin' the paddles bruise me something fierce."

"Omlasher, you'd better lock me up. Just hit my wife over the head with a club."

"Did you kill her?"

"Don't think she. Think why I want to be locked up."

"Surely, Miranda, you're not going to marry again when the Lord just took dear."

"Yes, I shah am," replied Miranda.

"As long as the Lawd takes 'em, so will I."

Spring

GRANDMOTHER was a wonderful housekeeper in her day and generation. Every spring, up came the carpets; down came the pictures and heavy lambrequins; out went the furniture, and in came soap and water and scrubbing-brush. Soon the floors and woodwork gleamed like new; the carpets were re-paced after a beating that sent every particle of dirt swirling away in a cloud of dust; the furniture was cleaned and returned to its customary place. Every-one was miserable, including grandmother—but it simply had to be done.

Women are better housekeepers than grandmother ever was or ever could be, for they have the modern conveniences to make them so. They have learned, through advertising, of the many utensils that make housework lighter and do it better. They have learned, through advertising, of better foods and how to prepare and serve them more attractively. They have bought, because of advertising, the many time and labor saving devices that we have come to regard as every-day necessities.

Because of advertising, women have more time for relaxation and the social amenities. They look younger. They are younger—by years—than grandmother at the same age. Advertising has made that possible.

Read the advertising and stay young.

NIGHTINGALE

We are sorry to learn that Cecil Thurston found it necessary on account of ill health, to become a patient at Miss Marchant's Hospital.

Mr. and Mrs. A. T. Neill, of Calgary, were week end visitors with the Cameron and Poole families.

R. A. Lambert can smile again. He knows now what it means to get ready to go and then not go. Some one borrowed his Ford last week, and the loss was not discovered until Mr. Lambert was ready to leave. However, the police located the car in Calgary, and all he had to do was get more gas and a new key and go on.

Mr. Slenaker entertained the U.S.W.A. at her home last Thursday. Rev. Gilbert, of Rockyford, was present, and gave a splendid talk on "Wine Savers". Some very interesting discussion followed. One thought particularly stressed was need of some time set aside each day for special thought or labor on something entirely outside of regular routine. President

Mrs. Stoodley, very graciously expressed thanks to Rev. Gilbert for the splendid address. The hostess served a delicious tea, and everyone went home feeling it was an afternoon well spent. The next meeting is at Mrs. Hartman's on May 2nd.

The Scholwater family visited with Mr. and Mrs. Benson last Sunday.

Ted Poole is visiting with friends around Nightingale.

The Baby Clinic will be at Nightingale Hall May 28th.

The Standard will be glad to have the names of visitors in town and accounts of various social events for publication. Such communications should be signed and the address of the sender given. Readers in the surrounding districts are especially invited to send us news. We want to cover the whole Bow Valley. Make the Standard Your Home Paper.

CLEAN UP,
TIDY UP,
AND PLANT

The clean-up season has again arrived, and Mayor Shrimpton and his cabinet have made special arrangements to make Strathmore a model town in the matter of sanitary condition through the engaging of the services of Geo. H. Brown, who will devote his entire time to general utility work.

Early as the season is, we have a practical demonstration of his efforts and the wisdom of the plan, and he has but a few days at his work.

Citizens can aid very materially to the efficiency of this work first by keeping all rubbish and garbage in proper containers placed at a convenient location for picking up in order that the utility man may not be needlessly delayed in his work, thereby being able to cover more territory in each day's work.

Each citizen, by giving a few hours each week, can keep each individual property tidy.

The season has also arrived when the resident can materially improve their homes by planting shrubs and flowers. The time required will not be burdensome, and the result in real satisfaction will amply repay each and everyone in the pleasure received by the owner or tenant.

Strathmore, with its beautiful park, which merits a reasonable expenditure, and if the Mayor and Councilors do a little "coaxing", they will be able to get the several tractors to start with a few "babies" from his strong box, which will be well expended in that particular section.

The citizens, by spending a few dollars each season, on the property they occupy, would develop a strong sentiment on the Community and encourage them to do their share on the public properties, knowing by the example of the people that they were really interested in making Strathmore one of the most attractive towns in Alberta.

The Lord has been kind to Strathmore in providing a charming location, the C.P.R. materially assisted in providing the attractive park, and now is an opportune time to endeavor what has been done by the individuals doing their share.

The Chairman of the Parks, Frank "Craddock", who boasts about all his horticultural work he does at his home, has a real opportunity to lead all to the Town Beautiful.

ONE CENT
REDUCTION COSTS
FIVE MILLIONS

When the price of wheat goes down one cent per bushel, it means that Canadian farmers have lost one million dollars. In 1928, through industrial disturbances, there was a loss of 28,132 working days. If the average wage of the workers was five dollars per day, this would mean that Canadian workmen had lost less than one and a quarter million dollars. In 1915, which was the year in which there was more industrial strife in Canada than there has been since, the figure was about ten times as high. This was serious enough, but it did not amount to as great a loss to the country as though the price of wheat had declined three cents a bushel. That is why the Grain Commission is important. That is why the Board of Grain Commissioners should be composed of men who know their business, and do it. That is why the Wheat Pool is the most important thing in Canada. That is why the rust research is a vital matter; why the discovery of frost resistant varieties of wheat is of interest; why the selection of seed is essential; why the destruction of weeds is vital. Every cent deducted from the price per bushel of Canada's "wheat crop" whether the deduction is on account of grade, transportation costs, or disorderly marketing, means a loss of five million dollars to the producing farmers of the West. If three thousand workmen went on strike and stayed out for a year, the loss in wages would not equal the amount of loss entailed by the loss of one cent per bushel in the selling price of Canada's wheat crop—Wheat Producer.

There is still a big field for human enterprise in the utility which others pass by. Men have made fortunes out of the commonest and meanest things; scraps of leather, slag, junk, grit and the byproducts of mine and mill. Opportunities? They are all around us. There is power lying latent everywhere waiting for the observant eye and the ingenious mind. Find out what the world needs and then supply that want.

The greatest hindrance to advancement in life is the lack of observation and the lack of inclination to take pains. The great things of the world have not been done by men of large means, but of large vision. They have usually started where they stood, as Edison began his experiments in a baggage car when a newspaper.

There's plenty of room at the top. Never before were there so fine openings, chances and opportunities. This is especially true for girls and young women. Emerson said: "The world is no longer clay, but rather iron in the hands of its workers, and men have got to hammer out a place for them selves by steady and rugged blows."

HUNDREDS OF
LIVES MAY
BE SAVED

Swatting the fly is meritorious practice, but swatting the fly's breeding place is far better. The best way to swat the fly is to eliminate, in and about the household, the places where it breeds, and the best time for this work of elimination is the present. A little spring cleaning is worth more than a lot of summer swatting. Exposed garbage and filth in general represent the most prolific fly-breeding spots. Millions of these germ-carry-
